

MAJ. WILLIAM MCKINLEY,

REPUBLICAN CANDIDATE FOR GOVERNOR OF OHIO.

McKinley, Jr., was born at Niles, Ohio, February 26, 1844. In the United States Army in May, 1861, as a private soldier in the Twenty-third Ohio Volunteer Infantry, and was mustered out of the same regiment and brevet major in September, 1865. He was the forty-fifth, forty-sixth, forty-seventh and forty-eighth Congress, receiving a certificate of election to the latter, but late in the session he was given the seat by the House. He was elected to the forty-ninth and re-elected to the fiftieth Congress as a Republican, receiving 18,776 votes against his Democratic opponent. McKinley was an orator than any of the other leaders of the House. He was likened to Stephen A. Douglas in appearance, but he is superior in his pose and manner of speaking than in personal appearance. His name is known in every part of the civilized world as the author of the McKinley bill. The devotion to him and Gov. Campbell as to the merits of protection and is likely to be very interesting.

was taken with a bad
cough on my lungs,
and finally terminated
in death. Four doctors gave
me medicine, but I could
not live but a
few days. I gave myself up to
death, but I could not
die. I was on earth, I
was absent ones above.
I was advised to get Dr.

THE WONDERFUL ELECTROPOISE.

The invalid's friend. The ever-present help and never-failing friend in times of need. Has been given the severest tests, and pronounced by people of all tongues and all climes, King of all Physicians. A panacea with honor at home and faithful worshippers abroad.

The life work of an educated physician, is an instrument for the cure of diseases without medicine, based on new theories of the cause and cure of disease. It deals with the electrical and magnetic conditions of the body and the gases surrounding it in the atmosphere, controlling these conditions at will. It is not electricity.
Disease is simply impaired vitality. The Electropoise constantly adds to the vitality and only assists nature, in nature's way, to throw off the trouble. Nothing is easier of proof than that, with this treatment, cures are made by which all other known means are impossible. This is an inexhaustible home treatment. There is no shock, and seldom any sensation at all is felt. The mystery is, how are the cures wrought? It is done by the absorption of oxygen and other life-giving gases into the system through the pores and membranes. This oxygen, or vital force, oxygenizes the blood and gives strength and vitality to the entire system, thus eradicating the disease, no matter by what name it is known by. No physician is needed, as the same treatment is applied in all cases, varying the treatment according to the age and strength of the patient. There is absolutely no danger and no disagreeable sensation accompanying its use.

WATSON & BUXTON, ATTORNEYS AT LAW,
WINSTON, N. C., September 16, 1891.

JAS. H. WEBB, 1405 New York Avenue, Washington, D. C.:
DEAR SIR:—I have been using one of your Electropoises for four years, upon a little invalid son, who has been afflicted with a pulmonary trouble and a dropsical tendency. I have found great relief for him in the use of the Electropoise, when the doctors had failed to give him any permanent relief, and am satisfied that but for its use we should have lost him. I have never seen it fail to reduce his fever, or to bring sound, sweet sleep. I would not be without it for many times its cost. Yours truly,
Mr. Buxton is also President First National Bank, Winston.
